

Cutter & Buck's Spring '15 ANNIKA Collection

Accents Fashion, Function, Flattering Fit

SEATTLE (Aug. 6, 2014) — For more than a decade, [Cutter & Buck](#) has worked with Annika Sorenstam to create a sporty, active collection that fits as well as it functions, with each piece embodying the LPGA legend's incredible drive and inspiration. The Spring 2015 ANNIKA Collection has three deliveries (Posh, Swim and Ultra) and promises to impress with its sleek, fashion-forward styling and emphasis on variety.

The Spring '15 Collection features color blocking, strategically placed prints, lustrous fabrics, unique color palettes, and dimensional accents. A wide range of necklines, sleeve lengths, and new bottoms will complement any woman's existing active wear or start an entirely new and exciting wardrobe.

Posh takes its name from the soft, tranquil colors that pair with flattering seaming and high-performance fabrics, creating a look perfect for spring days on the course, trail, or elsewhere. Subtle gold highlights appear in prints, on plackets, and in stitching and trim. Notable in the POSH delivery are:

- **CB DryTec Lina Skort.** This luminous culotte-styled skort is fashioned with a pleated front for movement and fit. Convenient side-seam pockets, moisture-wicking technology, and UV protection of UPF 25+ combine for form and function.
- **CB DryTec Catalina Mock.** Crafted with figure-defining seams on the bodice and an all-over floral print, the mock-neck top (with UPF 25+) perfectly combines form and function.
- **CB SunTec Rylie Mock.** Made from soft, brushed poly/spandex with UPF 50+, this mock features extended cuffs with thumbholes and a zipper-topping chin guard for comfort in chilly conditions.

ANNIKA's Spring '15 **Swim** delivery takes its inspirations from the sea—scuba styling, nautical stripes, and vintage swimwear. As refreshing as a sea breeze, this sporty assortment features three colors: aegean (navy), molten (hot coral) and white.

- **CB DryTec Mackenzie Polo.** This color-blocked polo gets its "pow" from an accent pop of color at the right chest and the y-shaped, two-button placket and gradient sublimation print along the back.
- **CB WeatherTec Jeanette Full Zip.** Designed for performance and style, this water-repellent piece is fashioned from luxurious iridescent fabric, is fully lined, features inner sleeve gaiters, and is styled with intricate seaming, contrast trim along the exposed zipper, plus a playfully striped drawcord on the hood.

- **CB DryTec Colleen Skort** and **CB DryTec Abbie Knit Skort**. Colleen is patterned in bold, bright chevrons; Abbie boasts brightly colored binding and a striped ruffle at the hem. Both use a moisture-wicking knit fabric to provide coverage and comfort on and off the course.

Ultra is the most dramatic of the ANNIKA Spring '15 offerings. These pieces are daring yet highly technical, with flattering structural seaming and piecing, plus mesh details for breathability. Lightly luminous silver fabric lends a futuristic vibe.

- **CB DryTec Shania Polo**. A modern, open v-neck with a gradient silver print down the front. Made of poly/spandex jersey, it is moisture-wicking and UPF 25+.
- **CB DryTec Kailyn Full Zip**. The curve-hugging Kailyn is a sleek new overknit featuring UPF 50+, princess seams, and luxe silver trim.
- **CB WeatherTec Carrie Vest**. This essential layering piece is solid silvery polyester, lined with lightweight batting for warmth. Front zip pockets, seaming details, and an exposed metallic zipper finish the look.
- **CB DryTec Adelina Skort** and **CB DryTec Lianna Skort**. Adelina offers a flattering fit courtesy of a fit-and-flare goared silhouette for unparalleled ease of movement; a side-zip closure, contour waistband, and moisture-wicking undershorts add comfort and coverage. Lianna is defined by a straight silhouette and hand-drawn line print, and fit with moisture-wicking undershorts and finished with a zip/button closure making it easy to slip on as a favorite pair of jeans.

Launched in 2004, the ANNIKA Collection now offers three deliveries each season. Sorenstam lends her inspiration to the designs that emphasize comfort and playability and feature vibrant colors. Loyal customers find the collection equally perfect for wear on or off the course. To learn more about the 2015 ANNIKA Collection, stop by Cutter & Buck's booth 902 at the 2014 PGA Expo, Aug. 19-21, in Las Vegas.
