

## **SUBAIR SYSTEMS OFFERS NEW FINANCING OPTIONS FOR GOLF COURSES**

**Graniteville, SC; October 16, 2018** – SubAir Systems, LLC today announced a new 100% project financing opportunity for its golf clients. Through a partnership with PNC Equipment Finance, SubAir clients can now receive payment solutions, customized to meet budget objectives, with 24 to 60-month terms available on capital or operating leases for its SubAir Systems and TurfBreeze™ fans.

The new program is available to all qualified SubAir customers, including public, private, and non-profit organizations. PNC reserves the right to approve financing at its sole discretion.

“This program allows golf course superintendents to conserve cash for other needs,” said Jay Penney, President, SubAir Systems. “Soft costs such as destination charges, taxes, and other fees can be included in the financed amount to get systems into the ground more quickly and address turf needs in a more expeditious fashion.”

SubAir Systems is the leading designer, developer, and manufacturer of subsurface aeration and moisture management systems that moderate and control subsoil environmental conditions. Benefiting all types of grasses in most climates, SubAir Systems support the overall health of the turf, virtually eliminating diseases while maintaining the continuous, consistent growth of deep rooted, resilient, healthy green grass.

TurfBreeze Fans reduce heat stress on natural turf and can increase grass transpiration, cooling the plant internally and keeping it healthier overall.

For decades, golf course superintendents unwilling to let Mother Nature wreak havoc with their turf conditions have turned to SubAir Systems to provide aeration, moisture removal, and root zone temperature operations that allow the creation of optimal subsurface growing environments.

PNC Equipment Finance is a member of The PNC Financial Services Group, Inc., with assets of more than \$366 billion.
